“Flower Buds” by JuanCarlos rLora

“Flower Buds” or Flor’s Buds is a symbolic sub-series within the larger “Sunflower” (Flor del Sol) series, capturing the delicate beauty of flowers in their earliest stage—right before they bloom into radiant Sunflowers. Each piece in this series represents the hopeful anticipation and transformative power just before the full bloom of the "Flower of the Sun."

The “Sunflower” series tells a profound story of love, hope, and the enduring strength of nature, centered on the concept of a “Flower of Love” growing on the burning surface of the Sun. Through this symbolism, the artist invites us to reflect on humanity’s relationship with nature and to spark a movement toward positive change and awareness.
